GENERALS DOWN RAIDERS 6-1

Friday, March 28, the Appomattox Raiders traveled to William Campbell, only to be defeated by the General 6-1.

The Raiders could only get three hits in the whole game, as Ward, pitcher for the Generals, threw hard. The three hits came from Keith Coleman, who sprinted hard to turn an infield bunt into a single, Ronald Doss who slammed a double, and Danny Hix, also with a double and who played an excellent game in centerfield. Tom Hix scored the only run.

A junior, Robert Doss, was losing pitcher, and he was relieved in the second inning by sophomore Tom Hix, who finished the game.

To Give TV Presentation

Less than two years after graduating from Appomattox County High School, West Point Cadet Mike Belter is back home doing some Military Academy recruiting during Spring Leave. As a member of the Cadet Public Relations Council (CPRC), Mike volunteered to speak to area high school students about West Point opportunities. CPRC is a cadet organization under the direction of the West Point Admissions Office. On Tuesday, Mike met with prospective candidates at ACHS and Halifax CHS.

This Saturday Cadet Belter will give a TVpresentation on the "Farm and Home Show," Channell 13, at 8 a.m. Theme of the program is "How to Win a College Scholarship," and Mike will appear with Air Force, Army, and Navy R.O.T.C. scholarship cadets and midshipmen from VPI, VMI, and UVA respectively, to discuss the uniformed services' scholarship programs. Each student will give a presentation about his school's program. Topics will include financial aid, academic majors, summer adventure training, service and career obligation, and personal challenge. In today's atmosphere of soaring college costs, the VPI Extension program should prove useful to parents and college bound students alike.

Mike Belter is a "Yearling," or sophomore, at West Point and has been active in athletics and special interest clubs: swimming, track, chess, math, Portuguese, and foreign affairs. Academically speaking, he plans to concentrate in the basic sciences, and will receive a Bachelor of Science Degree, together with a commission as Second Lieutenant in the Regular Army upon graduation. Mike is the son of Mr. and Mrs. Frank H. Carwile of Appomattox.

effect from March 1 through May 15 of each year. Smith also pointed out that this regulation is in addition to any air pollution control laws that exist and that are enforced by the Air Pollution Control Board.

Foresters urge that any burning be done after 4 p.m. and that the fire be checked the next day to be sure all sparks are cold. Fires should not be left untended and every effort should be made to make all open fires safe.

MAYOR PROCLAIMS APRIL CANCER CONTROL MONTH

ment, and

WHEREAS, the American Cancer Society, in addition to support of vital research, alerts the public to cancer's warning signals, and conducts other programs of public and professional education, and

WHEREAS, many cancers can be prevented, such as lung cancers, mainly caused by cigarette smoking, and most skin cancers, caused by frequent exposure to direct sunlight, and

WHEREAS, the medical profession is kept informed by the American Cancer Society of the latest advances in the treatment of cancer and nurses are informed how best to care for cancer patients, and

WHEREAS, the American Cancer Society provides useful and compassionate aid to women who have had breast surgery, through its Reach to Recovery program, and conducts other rehabilitation programs seeking to improve the quality of survival, and

WHEREAS, April is Cancer Control Month, by Presidential Proclamation and Congressional Resolution.

Therefore, BE IT RESOLVED:

That all residents of this State be urged to support the educational and fund raising efforts of the American Cancer Society as part of Cancer Control Month in April.

Think about this. Statistics tell us that during the coming year, thousands of people will be saved from cancer. Not only this, they also tell us that more could be saved if they got to their doctors in time for early diagnosis and treatment.

Join in the fight against cancer by doing three things: first, take the time to learn cancer's seven Warning Signals . . . your volunteer crusader will tell you what they are . . . and promise you'll see a doctor promptly if any of these signals apply to you or someone in your family; second, be sure to have a regular health check-up to insure early detection and treatment when the chances for curing cancer are best; and third, support the programs of the American Cancer Society with a generous contribution when the volunteer comes to call. "We want to wipe out cancer in your lifetime."

too late. Possible early signs include hard or soft (spongy) spots, a sore that does not heal, unusual bleeding or discharge, red or white spots or areas on mouth tissue, a swelling or thickening lump in the head or neck area. More often, these signs will be indications of a less serious or harmless condition, but let your dentist be the judge.
